

God is Transgender.

ucc.or

God is spirit, and his worshipers must worship in the Spirit and in truth."  
John 4:24

To assert that God is anything else but what God has revealed in the Bible is treading on some very thin ice.

Clearly this slide was created to suggest that God loves every human that has been created independent of that person's gender alignment. If that is the intent of the slide

perhaps it would be better to simply say this rather than trying to be cute and brushing up against blasphemy in the process. God is not Transgender. God is spirit which has nothing whatever to do with gender.

It is easy to be 'too smart by half' and alienate more people than you attract with this so called cleverness. This is one of the slides in the 2.0 Toolkit which certainly seems to have this potential.

Saying that God is Transgender would be a lot like saying God is a Republican or God is a Democrat. While there are some in our churches that behave as though they believe that, they would sound really absurd if they blurted it out. Those who say God is Transgender sound silly for much the same reason.

Let's not be silly. The study of God's attributes is a serious business. It need not be a joyless pursuit, but it is a serious pursuit nevertheless.
